Membership Corporation

## Levelized Billing Application

Levelized Billing provides you with a way to guard against large fluctuations in your monthly electric bill, without ever having to play "catch-up" at the end of the year. Under the Levelized program, your monthly electric bill becomes a rolling average of your electric usage for the most recent 13 months. Therefore, your amount due will vary from month to month. However, your bill will never increase more than 20% from the previous month. Levelized billing may be used for any account regardless of payment method and is available for any residential member with a good pay rating.

I agree to pay the Levelized Billing monthly amounts calculated for me by Southwest Tennessee Electric's formula. I understand the program automatically renews each year. However, Southwest Tennessee Electric or I may cancel the plan during the year with a settlement made at cancellation.
